HISTORY OF THE MOHAWK VALLEY LIBRARY SYSTEM

The Mohawk Valley Library System held its organizational meeting in November 1959 and received approval of its application for a charter from the New York State Board of Regents in May 1960. Included in the first plan was full library service to Schenectady County, to all of Schoharie County, and to those portions of Montgomery County not served by a chartered library. After the election of officers at the first meeting in January 1960, plans immediately began for the establishment of bookmobile service to the unserved areas of Schoharie and Montgomery counties. The first bookmobile was delivered on December 31, 1960. The System began operating January 2, 1960 in temporary quarters in an old electrical plant on Campbell Avenue. In 1966, the System moved to its own building at 858 Duanesburg Road.

The original member libraries were: the Cobleskill Public Library, Middleburgh Library, Mary Beatrice Cushing Memorial Library (Schoharie), and the Sharon Springs Free Library in Schoharie County; the Fort Hunter Free Library in Montgomery County; and the Schenectady County Public Library. Subsequently, these were joined by the Gloversville Free Library and the Johnstown Public Library in Fulton County; the Amsterdam Free Library, the Canajoharie Library and Art Gallery, the Frothingham Free Library in Fonda, the Fort Plain Free Library, and the Margaret Reaney Memorial Library in St. Johnsville -- all in Montgomery County. The system charter was revised to include full library service to all areas of the four counties: Fulton, Montgomery, Schenectady and Schoharie. In 1986, the Northville Public Library became the fourteenth member of the system.

Member libraries are chartered by the New York State Board of Regents and are governed by local boards of trustees. Libraries in the Mohawk Valley Library System are governed and receive funding through differing structures. The Community Library (Cobleskill), Gloversville Public Library, Johnstown Public Library and Northville Public Library are school district libraries, chartered to serve the residents of the school district and funded through a voter-approved budget. The Schenectady County Public Library is the only 'true' county library system in New York State, created by Schenectady County and funded through that municipality. The Margaret Reaney Memorial Library is municipally chartered and is primarily funded through a funding initiative on the school district ballot. The remaining libraries are free association libraries, non-profit agencies which receive funding contractually from the municipality served and/or through voter approved initiatives on the municipal or school district ballot.

Technology has dramatically changed the landscape of library services and services depending upon technology have grown to provide resources no longer dependent upon public library size. In partnership with the Southern Adirondack Library System, the System operates an integrated library system utilized by all member libraries and available to the public via the Internet.

MVLS operates under a state approved Plan of Service which is developed and reviewed by the Board of Trustees and the member libraries. Services are evaluated, revised, expanded or eliminated based upon library need and use, budget, and current trends in public libraries. MVLS exists to support public libraries in meeting the demands of their local communities.

a. Purpose of the Organization

The Mohawk Valley Library System educates, empowers and supports public libraries in Fulton, Montgomery, Schenectady, and Schoharie Counties, helping libraries enrich their communities. This is accomplished through a variety of support services to the public libraries in the four counties including continuing education, consulting services, delivery, cataloging, communications, outreach programs, and in partnership with the Southern Adirondack Library System, automation services and support.

The system exists to serve the member libraries and services and programs are directed toward strengthening local public library services.

b. Financial Support

The Mohawk Valley Library System receives primary funding from the State of New York, based on a formula approved by the legislature. The system also writes and implements grant projects to meet the needs of the member libraries and to seed innovation in our region. Various member fees and other allocations allow the libraries to pool their resources to maximize efficiency and collaboration.

c. The Central Library

The Schenectady County Public Library is the Central Library for the system. An annual application for state Central Library Development Aid provides detail on the services that the library provides as central library. Central Book Aid funds the purchase of adult non-fiction materials supplementing resources owned by member libraries. These materials are housed and available from the Central Library.

The Central Library provides quality reference and informational services to the member libraries and residents of the MVLS region. It extends its full range services to all residents of Fulton, Montgomery, Schoharie counties on the same basis that they are provided to the residents of Schenectady County.

ORGANIZATIONAL STRUCTURE

The Board of Trustees, created in accordance with the charter, consists of thirteen members, three from each of the member counties and one representing the MVLS Directors' Council. The first trustees were members of the boards of trustees of the chartering libraries, but subsequent trustees have also been elected from the public at large. Elections are held at the annual meeting of the System in the spring of each year and voted on by member libraries. Terms of office are five years. No member may serve more than two full consecutive terms.

Committees of the board include: the Executive, Audit & Finance, Building & Equipment, Library Services/Planning and Development, Personnel, Communications, and Awards. By virtue of its partnership agreement, the President of the Board or a designee serves as a member of the Joint Automation Council, a joint committee of MVLS and the Southern Adirondack Library System. Membership on system committees is extended to representatives of member libraries as well as MVLS trustees.

The Director of the System is appointed by the Board of Trustees, is responsible and accountable to the board, and is charged with system administration. The Director is also responsible for the appointment and evaluation of personnel.

The Assistant Director is appointed by the Director with approval of the Board of Trustees, is responsible to the Director, and acts for the Director when the Director is unavailable.

The MVLS Plan of Service, Bylaws, Board of Trustee minutes, and other information are available on the MVLS website: www.mvls.info.

8. Health Insurance

- a. The Employer shall provide health insurance to its employees through a mutually agreed on plan which may be changed from time to time by mutual agreement. The participating employee's share of the premiums shall be taken by the employer out of the employee's pre-tax salary, so long as the practice is permitted by the Internal Revenue Service.

The employer shall pay the following percentage of premiums for health insurance on behalf of eligible employees who were in service on October 31, 2010:

- d. Coverage while on leave without pay may continue if the employee files the appropriate application and assumes payment of each monthly premium to the employer in advance. Coverage for terminated employees is dictated by COBRA, the Affordable Care Act or other applicable law.
- e. Detailed information on specific benefits is available from the Administrative Assistant and the health insurance booklets, website or other information provided by the plan.
- f. Medicare
 - (i) An employee, retiree, or employee's/retiree's spouse, reaching age sixty-five (65) must elect Medicare as the primary insurer, and the Employer's insurance plan will then become secondary payer.
 - (ii) There will be annual reimbursement of Medicare payments in December for eligible active and retired employees and their eligible dependents. An employee who has applied for Worker's Compensation benefits may use sick leave while waiting for approval of the application for benefits. Once Worker's Compensation benefits are approved, the System will supplement the employee's benefit from the employee's available leave allowances until all such leave allowances are exhausted. The leave donation program may not be used to extend the period during which the employee's Worker's Compensation benefit is supplemented. The supplemental amount paid will be calculated so that the employee's biweekly disposable income from Worker's Compensation and the MVLS payroll combined will be equal to the biweekly disposable income the employee would have if s/he were being paid as an active employee.

While on leave, the employee will not accrue seniority. If the leave is for six months or more, the employee will not advance on the salary schedule at the next opportunity for such advancement which follows the commencement of the leave; if the leave is for less than six months, the employee will advance on the salary schedule as if the employee's service had not been interrupted by the leave.

While on leave, the employee will not accrue additional sick or vacation leave or other benefit credits.

If any part of the initial full payment is reimbursed by the Worker's Compensation system to MVLS, leave allowance will be restored to the employee to the extent of the reimbursement.

11. Tuition Reimbursements

Employees who pursue work related higher education from a credentialed provider may request partial tuition reimbursements from MVLS for completed coursework. Reimbursements will be for no more than 50% of paid tuition, capped at \$2,000 per year for each employee. All tuition reimbursement requests must be approved by the Board of Trustees. Appendix A

Voluntary Leave Donation Program

a.) Voluntary Leave Donation Program allows Eligible Employees to assist each other in times of medical need by donating accrued leave time to an Eligible Employee with a Serious Health condition who has exhausted all his/her own accumulated leave time. Participation in this program, either as a recipient or a donor, shall be voluntary and uncoerced.

b.) DEFINITIONS

The following terms, when used in connection with the Voluntary Leave Donation Program of the Mohawk Valley Library System, shall have the meanings set forth below.

1. AUTHORIZED AGENT A spouse, adult child, or parent of an Eligible Employee, or a person appointed by either a power of attorney or a court to act on the Employee's behalf, who submits and processes a request to solicit leave donations on behalf of the Employee because the Employee's Serious Health Condition prevents the Employee from acting.

With the consent of the Executive Director, in appropriate circumstances a person other than those listed may serve as Authorized Agent for an Eligible Employee in connection with the Program.

2. ELIGIBLE EMPLOYEE Any employee with at least one year of service in the System.
3. HEALTH CARE PROVIDER Shall have the same meaning as this phrase has for the purposes of the Family and Medical Leave Act.
4. LEAVE DONOR An Eligible Employee who donates leave to a Leave Recipient as part of the Program.
5. THE PROGRAM The Voluntary Leave Donation Program of the Mohawk Valley Library System.
6. REQUEST A request to solicit leave donations made, in accordance with terms of the Program, by or on behalf of an Eligible Employee.
7. SERIOUS HEALTH CONDITION Shall have the same meaning as this phrase has for purposes of the Family and Medical Leave Act, except that a condition for which the Eligible Employee receives payment pursuant to the New York State Workers' Compensation Law shall not be considered to be a Serious Health Condition for purposes of the Program.
8. SOLICITATION NOTICE The notice used to solicit donations from Eligible Employees on behalf of a Leave Recipient.

c.) REQUEST FOR SOLICITATION

If an Eligible Employee is expected to be absent from work at least thirty (30) working days because of a Serious Health Condition, and has exhausted all accumulated sick, personal and vacation leave credits, the Eligible Employee, or an Authorized Agency, may submit a Request to solicit leave donations to the Executive Director. The Request shall be on a form provided by the System, and shall state the number of days of donated leave being requested initially. The Request shall be accompanied by a statement from the Health Care Provider, identifying the

Eligible Employee's Serious Health Condition, and indicating the probably duration of the Employee's necessary absence from work resulting from that condition.

d.) SOLICITATION

Upon receipt of a Request which satisfies the Program criteria, the Executive Director shall approve the Request, and prepare a Solicitation Notice on behalf of the Leave Recipient. Prior to issuing the Solicitation Notice, the Executive Director shall submit the Notice to the Leave Recipient or to the Authorized Agent, for approval of the description of the circumstances and nature of the absence for which leave donations are being requested; the Notice cannot be posted, and no leave may be donated, until such approval is received.

Employees will be made aware of a solicitation for leave donations by posting of the Solicitation Notice on all bulletin boards within the System office; a copy of the Notice will also be provided directly to each employee. No additional solicitation activity shall be undertaken by the Leave Recipient or by any other employee. This prohibition does not preclude discussion among employees of their personal responses to the solicitation, so long as there is no attempt, in such discussions, to coerce any person into donating or refraining from donating leave. No employee in a supervisory position shall undertake any solicitation activity on behalf of the Leave Recipient, nor shall any employee in a supervisory position offer any opinion as to whether leave should or should not be donated.

e.) DONATION

1. Eligible Employees may donate sick or vacation leave in response to a Solicitation Notice. Only leave time already accrued and still available for use by the Leave Donor may be donated; leave time which has been forfeited because the Leave Donor has exceeded the maximum allowable accrued leave, or has failed to use leave within the required period, is not available for donation. Donations must be made in full-hour increments. Any Leave Donor may donate accumulated unused vacation time and may donate all of such leave s/he has. In order to donate sick leave, an Eligible Employee must have more than thirty (30) days accumulated unused sick leave, fifteen (15) days for an employee with less than two (2) years of continuous service; a Leave Donor may donate only sick leave days in excess of the number required to qualify to donate sick leave.
2. Donations of leave must be made within fifteen working days following the initial posting of the Solicitation Notice; donated leave may be applied retroactively to the absence of the Leave Recipient. Leave donations will be processed in the order in which they are received until either the maximum amount of leave requested has been donated, or the final day for donation established by this paragraph has passed.

f.) USE OF DONATED LEAVE

1. Donated leave must be used in full day increments, with the following two exceptions:

If the total number of hours donated, divided by the number of hours in the Leave Recipient's regular workday, leave a remainder of less than a full workday, the Leave Recipient may use that partial workday.

If the Leave Recipient is collecting replacement wages through disability insurance, partial day payments may be made to the extent necessary to allow the Leave Recipient to continue to qualify for and receive such insurance.

2. Generally, all leave donated in response to a single solicitation must be taken on consecutive workdays. The Director may approve the use of donated leave to cover intermittent absences, where the Health Care Provider supplies advance documentation of the medical necessity for such intermittent absences.
3. Donated leave not used by the Leave Recipient within one year of the initial posting of the Solicitation Notice before the Leave Recipient's Serious Health Condition ends, whichever is earlier, will be restored on a proportional basis to Leave Donors who donated leave in response to the most recent solicitation or resolicitation made on behalf of the Leave Recipient.
4. Donated leave time will be paid to the Leave Recipient at his/er rate of pay, not at the Leave Donor's rate of pay.
5. Donated leave shall run concurrently with unpaid leave under the Family and Medical Leave Act. Donated leave may not be used to extend the Leave Recipient's total absence from work, including both paid and unpaid leaves, beyond twelve continuous months. The Leave Recipient shall not accrue vacation, sick or personal leave credits during the period s/he is using donated leave time.
6. Payment of premiums for health insurance during a period of donated leave shall be made in the same manner as during a period of extended leave approved by the Board.

g.) RESOLICITATION

1. Once an initial Request has been approved, the Leave Recipient or Authorized Agent may submit Requests for additional solicitations to be made; each such Request for an additional solicitation shall be accompanied by a statement from the Health Care Provider supporting the medical need for continued absence from work, and indicating the probable duration of that absence.
2. No more than 260 leave days may be donated to a Leave Recipient employed on a 12-month basis in connection with a single Serious Health Condition. After that maximum is reached, the Leave Recipient may not submit any additional Requests until s/he has returned to work in the System and completed at least one additional year of continuous service.
3. Regardless of the number of days of leave donated, a Leave Recipient shall not be eligible to submit a Request for leave donations with respect to an unrelated medical condition until s/he has returned to work in the System and completed at least one additional year of continuous service.

h.) ADMINISTRATION

1. The Leave Recipient, or the Authorized Agent, may be made aware of the names of Leave Donors, but shall not be told how much leave any individual has donated; a Leave Donor may request that the leave Recipient or Authorized Agent not be given the Donor's name, and such request will be honored. No one other than the Leave Recipient, or Authorized Agent, and those employees whose job duties require their involvement in processing leave donations shall be informed of the names of Leave Donors, or of the amount of leave donated to any Leave Recipient.
2. Submission of the Request and approval of the Solicitation Notice constitute a waiver of confidentiality by the Leave Recipient or Authorized Agent with respect to the information

contained in the Request, the Notice, or any documentation at any time provided by the Health Care Provider in connection with the Program, to the extent such documents are used in accordance with the terms of the Program. If necessary, the Leave Recipient or Authorized Agent shall execute a HIPAA release. Such submission and approval further constitute an agreement that neither the Leave Recipient nor any person acting on his/her behalf will attempt to use the disclosure, in connection with participation in the Program, of information concerning the Recipient's Serious Health Condition as evidence in any legal action alleging that the System violated the Leave Recipient's right to privacy or discriminated against the Leave Recipient on the basis of disability or perceived disability.
