

Why are we creating a RAINBOW with our Picture Books?

Welcome to **Picture Book City**,

home to **YOUR** Library's picture books!

Picture Book City is a collection of picture books arranged into neighborhoods by subject. By allowing your child to find books he or she is interested in, this collection will help you to develop your young child's pre-literacy skills.

Over the next few months, we will be rearranging our picture books, and adding age-appropriate non-fiction!

Right now, picture books are still in alphabetical order by **AUTHOR**, soon you will see that they are shelved by **Picture Book neighborhoods**.

In the meantime, tell your child to look for colored labels on books with these colors in these subject neighborhoods!
